

BEAU COOPER

Dallas-Fort Worth, TX | 843-605-3291 | beaucooper.41@gmail.com | linkedin.com/in/beaucooper | github.com/bcoopr1

TARGET PROFILE

Cybersecurity-focused business and technical professional with experience in account management, CRM data, customer-facing service, audit, and security tooling. Combines hands-on knowledge of SIEM, vulnerability management, network security, compliance frameworks, and AI-enabled workflow automation with a record of revenue recovery, relationship building, and cross-functional execution. Seeking to support Critical Start customers across North Texas by translating MDR, risk, and security operations capabilities into measurable business value.

EDUCATION

B.B.A. Management Information Systems | Baylor University | Waco, TX

May 2026

- Relevant focus: cybersecurity, IT governance, data analytics, business systems, CRM data, and secure workflow automation.

EXPERIENCE

Internal Audit Intern | Prisma Health | Columbia, SC

Jul 2025 - Aug 2025

- Developed audit testing procedures for PCI DSS controls, identifying security risks, control gaps, and remediation priorities for technical and business stakeholders.
- Assisted audits of Digital Darkness cyber exercises, Business Continuity Plan playbooks, and incident readiness processes to validate resilience against cyber disruptions.
- Supported cybersecurity and IT governance reviews using NIST CSF and COBIT, building fluency in risk, compliance, security operations, and executive-level control reporting.

Data Analyst Intern | Association for Citizenship Teaching | London, UK

Jan 2025 - Apr 2025

- Led legacy CRM migration into CiviCRM by mapping fields, sanitizing PII, and enforcing GDPR-aligned retention policies for cleaner stakeholder and campaign data.
- Built Tableau dashboards to monitor data quality, campaign performance, and stakeholder engagement through secure data connections and role-based access controls.
- Used SQL joins, aggregations, and window functions to turn high-volume CRM and campaign data into actionable reports for internal decision-making.

Service Intern | Ditch Witch | Fort Worth, TX

Jul 2024 - Aug 2024

- Managed customer account updates, service requests, and payment status in CRM software while coordinating with service, parts, and finance teams to improve customer satisfaction.
- Recovered over \$300,000 in surplus parts through inventory reconciliation and data analysis, strengthening operational accuracy and account visibility.
- Tracked overdue accounts and collected over \$87,000 in missing revenue, demonstrating follow-through, negotiation, and pipeline discipline in a customer-facing environment.

Summer Area Manager | Lumio Solar | Texas / South Carolina

Jun 2023 - Aug 2023

- Managed assigned territories, prospected new customers, and built consultative sales strategies for residential solar offerings in a competitive field sales environment.
- Earned top salesperson recognition by translating technical product value into customer outcomes and maintaining consistent outreach, follow-up, and relationship development.

PROJECTS

Shepherd AI | Self-Hosted AI Email Workflow Agent | Private GitHub

2025

- Built a secure email workflow agent for real estate teams using Microsoft 365 OAuth, Azure, n8n, PostgreSQL/pgvector, vector embeddings, metadata tagging, and RAG search.
- Enabled users to query email and retrieve closing documents through a secured chatbot, reinforcing experience with AI-assisted triage, sensitive document handling, and business workflow automation.

KaliMCP | Pentesting Model Context Protocol | github.com/bcoopr1

2025

- Developed a Dockerized Python MCP server integrating Kali Linux tools including Nmap, Gobuster, Nikto, Metasploit Framework, and FastMCP for repeatable security testing workflows.
- Applied hands-on knowledge of network enumeration, web testing, vulnerability discovery, and security assessment tooling relevant to MDR and advisory conversations.

CERTIFICATIONS

CompTIA Security+ CE | Microsoft Excel MOS | Red Cross CPR/AED

SKILLS

Cybersecurity: MDR concepts, SIEM, endpoint security, network security, vulnerability management, incident response, threat intelligence, MITRE ATT&CK, OWASP Top 10, PCI DSS, NIST CSF, COBIT, GRC, HIPAA, GDPR

Sales & Account Management: Prospecting, customer discovery, relationship building, territory management, CRM account tracking, presentations, cross-functional coordination, revenue recovery, pipeline follow-up

Technical Tools: Python, SQL, PostgreSQL/pgvector, JavaScript, Azure, Docker, Linux, Windows, Tableau, Power BI, MS Office Suite, MS Teams, n8n, OAuth 2.0, secure API design
